AL-AHED HOLDING

YOUR SERVICE PARTNER IN QATAR

- Established in **1975**, AL-AHED HOLDING is a leading provider of innovative solutions in Qatar's Energy Sector.
- From our flagship subsidiary **Al-Ahed Trading, Doha Petroleum Construction Company (DOPET), PEMCO Inspection** to specialized trading and contracting services, we have built a reputation for **excellence** and **reliability**.
- Our commitment is embedded in our founding principle: "**Your Service Partner**."

العهد القابضة
AL-AHED HOLDING

OUR HISTORY

DOPET (Doha Petroleum Construction Co. Ltd.)

A major EPC contractor serving Qatar’s oil & gas, petrochemical, and industrial sectors with engineering, construction, and maintenance services.

1981

DOPET Sales & Technologies

Focused on delivering advanced technologies, engineered solutions, and specialized equipment to support industrial innovation and efficiency.

2019

العهد القابضة
AL-AHED HOLDING

1975

Al-AHED TRADING

Pioneers in delivering industrial tools, equipment, and safety solutions across Qatar’s key sectors. Trusted for quality and reliability for over four decades.

1987

PEMCO Inspection Company

Leading provider of inspection, testing, and certification services. Ensuring safety and compliance for industrial and energy facilities.

AL-AHED TRADING

EXCLUSIVE BRANDS AND ENERGY SECTOR SOLUTIONS

- **AL-AHED TRADING & CONTRACTING** is a wholly owned subsidiary of **AL-AHED HOLDING**.
- We proudly represent over **10 exclusive brands** in the Oil & Gas industry, providing **machinery and equipment** to meet the demands of Qatar's energy sector.
- Our services are backed by a **solid track record** in after-sales support, ensuring timely **maintenance**, **replacements**, and unmatched service quality.

SEALS

Seals are essential for preventing leaks and ensuring the efficiency of rotating equipment in industrial operations.

John Crane, a global leader in rotating equipment solutions, delivers innovative sealing technologies and services to industries worldwide.

For over 40 years, Al-Ahed has proudly represented John Crane in Qatar, ensuring access to world-class sealing solutions and expertise.

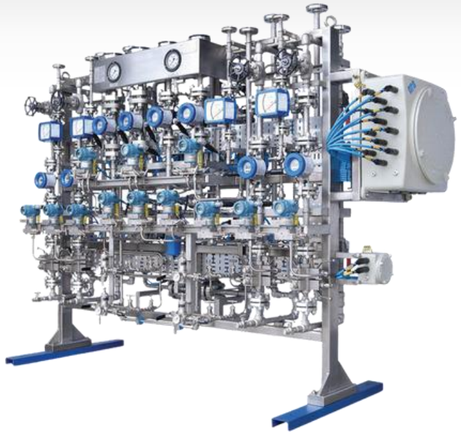

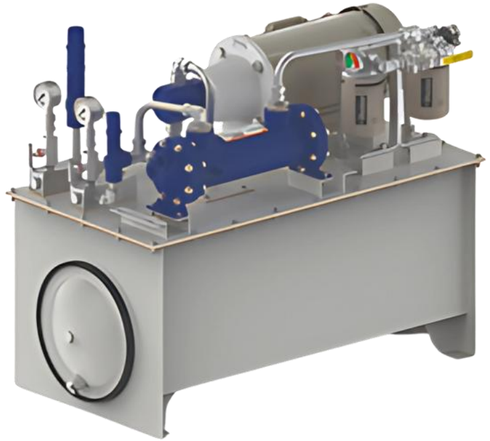

SEALS

- **Mechanical Seals:** Reliable solutions for diverse industrial applications.
- **Dry-Gas Seals:** Advanced sealing for turbo machinery and compressors.
- **Turbo-Machinery Support Systems**: Optimized for performance and durability.
- **API Plan Systems:** Engineered safety and compliance solutions.

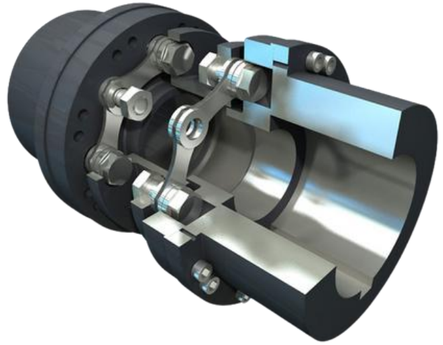

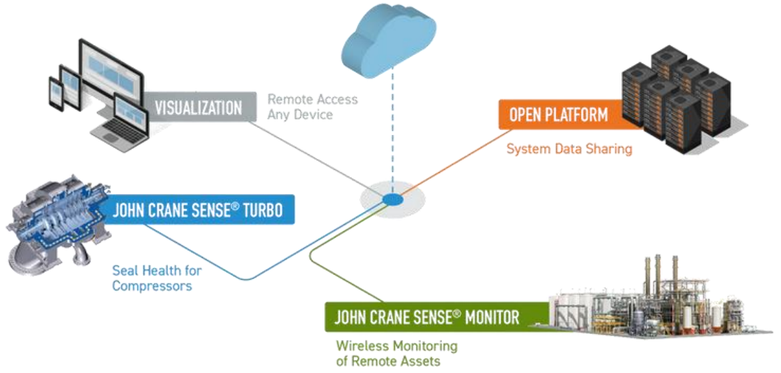

SEALS

- **Couplings:** Precision-engineered for high-performance rotating equipment.
- **Gland Packings:** High-quality sealing for demanding environments.
- **Filtration Systems:** Ensuring extended equipment life and efficiency.
- **JCAMS:** Asset management solutions for reducing downtime and maximizing productivity.

SERVICE CENTER

The Service center located in the Ras Laffan Industrial City (RLIC). It is Qatar's first dry gas seal repair and testing facility. The service center will provide us with the capabilities necessary for aftermarket support.

Capabilities includes:

- **Repair and testing of dry gas seals:** The service center bolsters John Crane's capabilities to delivery highly critical services to repair and test dry gas seals locally within Qatar and enables John Crane to provide end-to-end solutions to oil and gas customers. The service center includes spare part stocking services, along with the repair and balancing of standard and high-pressure couplings.
- **Local expertise:** The facility will add local expertise to provide critical service capabilities that will help to reduce customer lead time, as well as reduce delivery and shipment costs.

Sundyne

شركة العهد التجارية
AL-AHED TRADING

PUMPS & COMPRESSORS

Pumps and compressors play a crucial role in powering industrial operations across diverse sectors, ensuring efficiency and reliability.

Sundyne is a world-renowned manufacturer of high-performance pumps and compressors, catering to industries such as Oil & Gas, Petrochemical, Power, Water, and General industries.

Al-Ahed has been Sundyne's trusted Channel Partner in Qatar for more than 40 years, achieving Tier-1 recognition in the Sundyne-ChannelONE partner program.

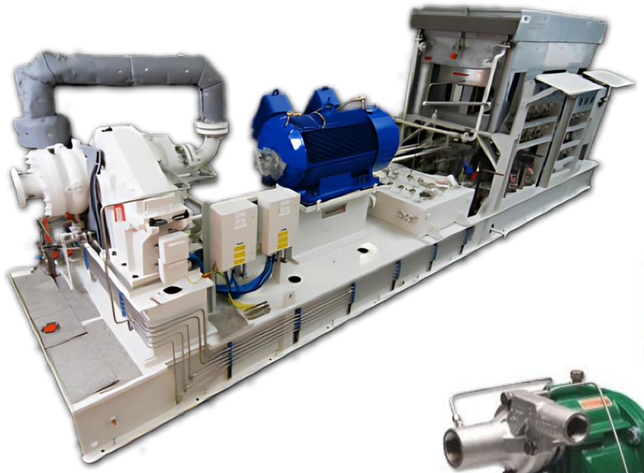

Sundyne

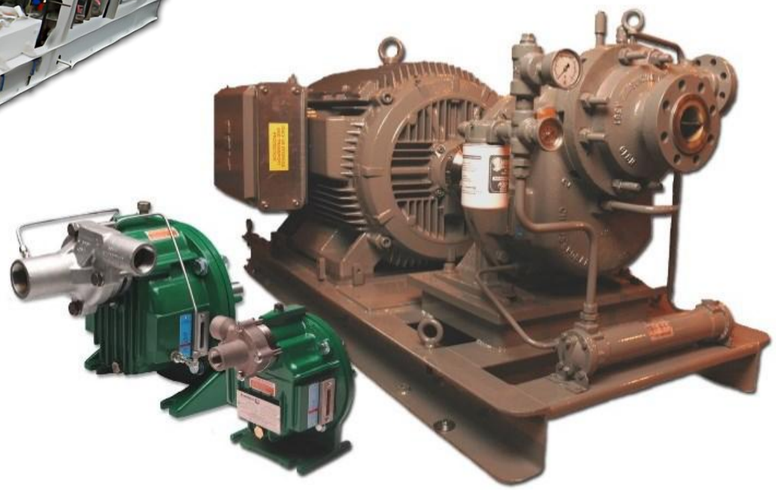

شركة العهد التجارية
AL-AHED TRADING

PUMPS & COMPRESSORS

- **LMV High-Speed Integrally Geared Centrifugal API-610 Type OH6 Pumps** (Manufactured in France & USA).
- **High-Speed Integrally Geared Centrifugal API-617 Process Gas Compressors** (Manufactured in France & USA).
- **Sunflo ANSI High-Pressure Integrally Geared Centrifugal Pumps** (Manufactured in France & USA).

Sundyne

شركة العهد التجارية
AL-AHED TRADING

PUMPS & COMPRESSORS

- **HMD Seal-less Magnetic Drive API-685/ANSI/ISO Centrifugal Pumps** (Manufactured in the UK).
- **ETFE lined ANSIMAG Seal-less Magnetic Drive ANSI Centrifugal Pumps** (Manufactured in the USA).
- **Marelli API-610 Complete Range of Centrifugal API-610 Pumps** (Manufactured in Spain).

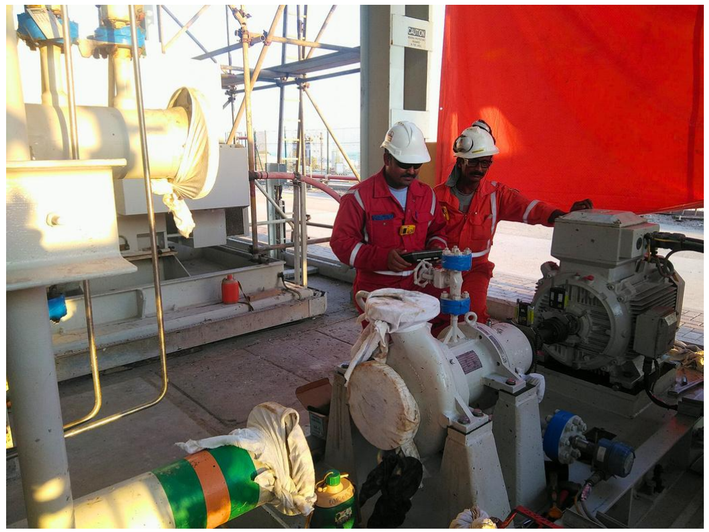

FIELD SERVICE SUPPORT

Al-Ahed offers expert installation, maintenance, and repair services for Sundyne products, ensuring maximum performance and reliability.

- **Field Service Engineers:** Trained in Sundyne equipment to meet global standards.
- **Maintenance & Repairs:** Preventive care, troubleshooting, and on-demand fixes.
- **Upgrades & Overhauls:** Optimizing and extending equipment life.

SPXFLOW
Bran+Luebbe

شركة العهد التجارية
AL-AHED TRADING

SPX FLOW – BRAN LUEBBE, GERMANY

An integral part of SPX FLOW, Bran+Luebbe serves a broad array of key industry sectors including Oil & gas, Petrochemical, Water Treatment, Chemical, Pharmaceutical, Food/beverage production, Paper Manufacture and Utilities.

This includes standardized Double Diaphragm Pumps, Metering Pumps, Process Pumps, Chemical injection skids and multi-stream analyzing equipment

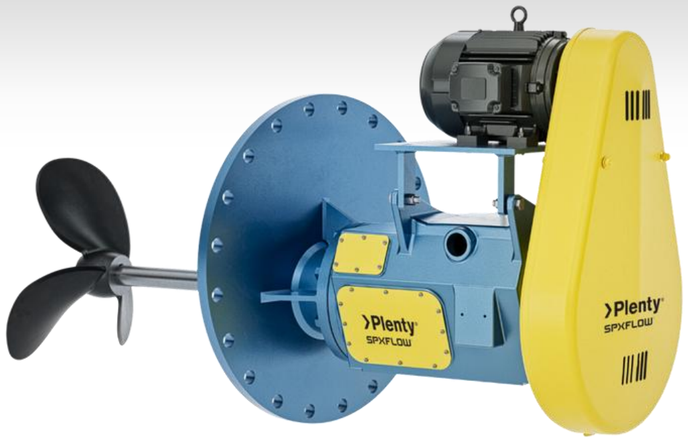

SPX FLOW – PLENTY & LIGHTNIN MIXERS, POLAND

As an SPX FLOW brand, Lightnin & Plenty Mixers serves the challenging Oil & Gas, Waste and Water treatment sector, Fertilizers, Processing of solvents, food/beverages, pharmaceuticals and biofuels.

The Mixers and Agitators, that are custom designed and fabricated, are used for Equalization, Neutralization, Flocculation, aeration, Sludge mixing, Flash mixing and General blending purposes.

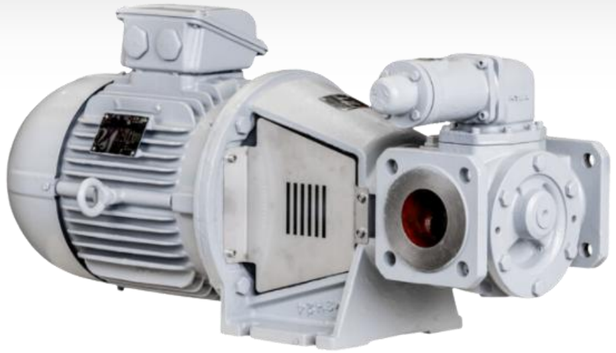

SPXFLOW
Johnson Pump

شركة العهد التجارية
AL-AHED TRADING

JOHNSON PUMPS – SPX FLOW, NETHERLAND

Johnson Pump offers a wide range of pumps for various applications such as Water treatment, Shipbuilding and Automotive.

The Johnson Pump portfolio covers Internal Gear Pumps, Flow Control Pumps, Rotary Lobe Pumps, Air Operated Double Diaphragm Pumps.

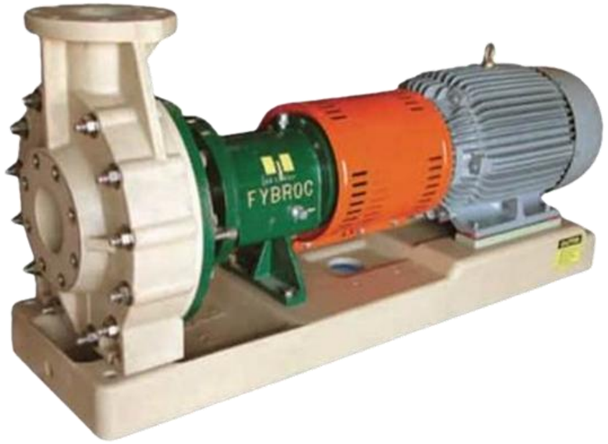

CECO ENVIRONMENTAL

شركة العهد التجارية
AL-AHED TRADING

CECO ENVIRONMENTAL – FYBROC, USA

Fybroc® is the world leader in the design and manufacture of Fiberglass Reinforced Polymer (FRP) pumps. These pumps are available in different materials to provide corrosion resistance for pumping Acids, Brines, Caustics, Bleaches, Solvents, Seawater, and a wide range of Waste liquids. Fiberglass centrifugal pumps offer excellent corrosion resistance without having to use costly and volatile exotic metals.

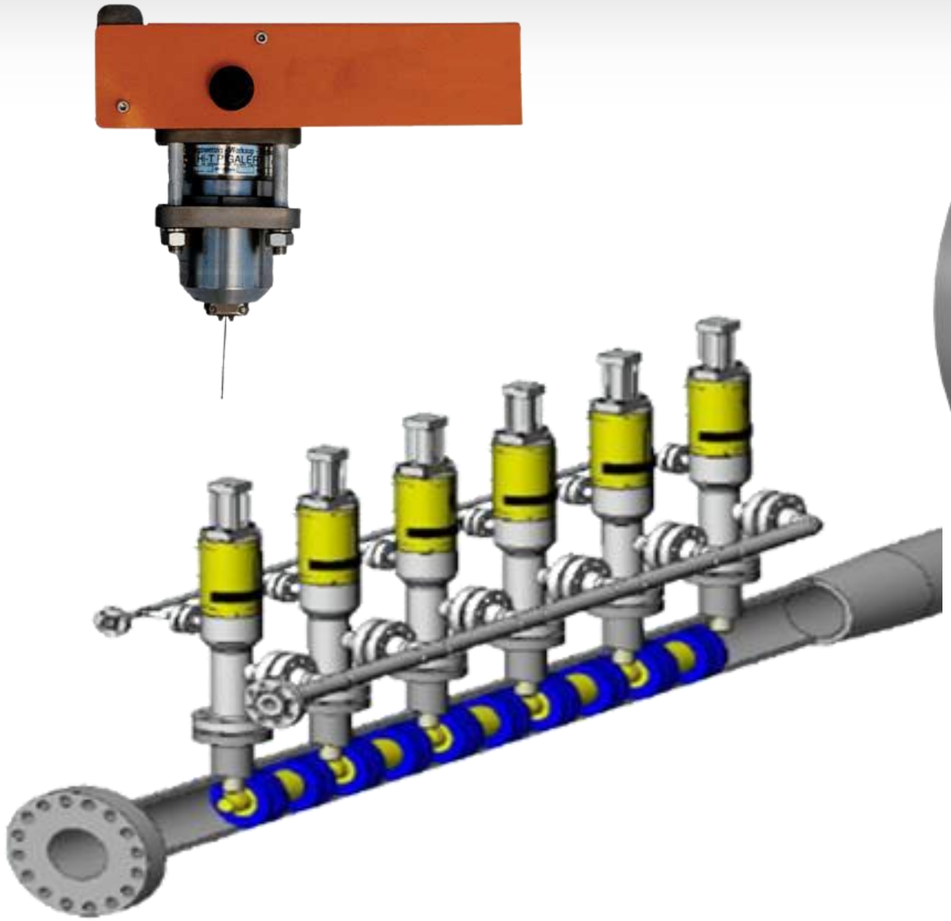

CELEROS – GD ENGINEERING, UK

GD Engineering has gained a worldwide reputation for pioneering work in the design and manufacture of advanced pipeline access and pigging solutions.

- Quick-opening closures enable rapid access to vessels once they have been depressurized. This can be done without the need for any special tools.
- Pig signalling solutions allow the accurate monitoring of pigs/scrapers.
- Multiple Pig Launching solutions for both Topside and Subsea applications to enable sequential pig launching operations to be performed remotely, without the need to depressurize the launcher.

CELEROS FLOW TECHNOLOGY

M&J VALVE

شركة العهد التجارية
AL-AHED TRADING

CELEROS – M&J VALVES, USA

M&J manufactures Control valves, Gate valves, Check valves, Diverter valves, Bi-directional ball valves and Surge valves.
M&J valves make use of an array of different shut-off mechanisms (slab, piston, swing, rotary and axial) to reflect the breadth of application characteristics presented.
They are suitable for incorporation into both Overland and Subsea pipelines, along with Storage facilities, Offshore platforms and Pumping stations.

CELEROS FLOW TECHNOLOGY

COPES-VULCAN

شركة العهد التجارية
AL-AHED TRADING

CELEROS – COPES VULCAN , USA

Copes-Vulcan offers General service and Severe duty control valves, Desuperheaters and Direct steam converting valves. Copes-Vulcan's Desuperheater is recognized industry wide as the most versatile desuperheater available. It is easily capable of meeting the most demanding needs for desuperheating in both the Power and Process industries.

This offers extremely fine control and exceptional turndown that is limited only by the rangeability of the coolant control valve itself.

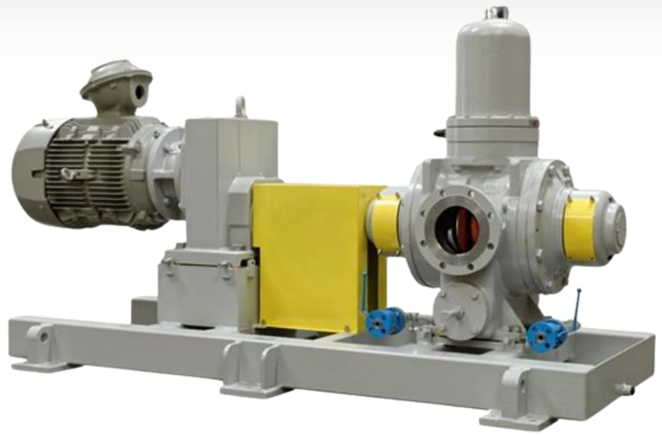

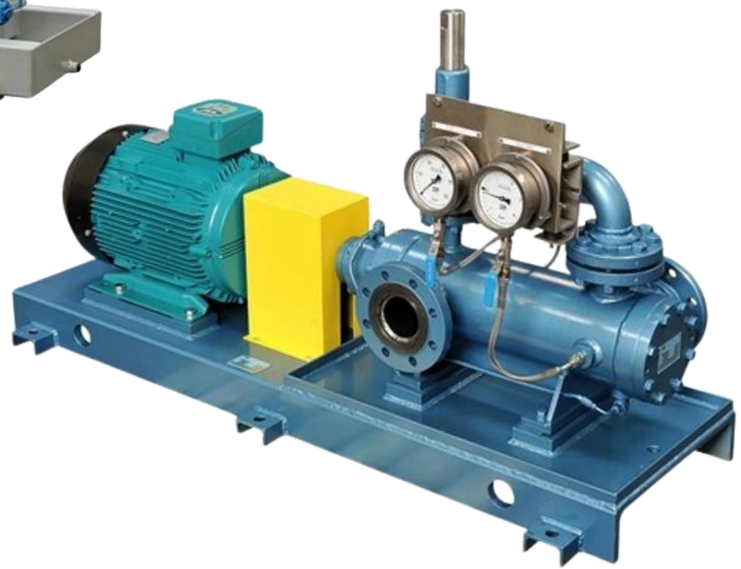

PLENTY MIRRLEES PUMPS – CELEROS, UK

Plenty’s offers high quality pumps that cover a diverse range of different application. Plenty Mirrlees Pumps are all well suited for use in the highly demanding industries like Power, Chemical, Oil & Gas, marine, food/beverage and water treatment sectors.

Plenty Mirrlees offers a comprehensive portfolio of Positive Displacement, Variable flow and Fixed flow rotary vane pumps, plus a multitude of Triple and Twin screw pumps, ideal for applications including forced oil lubrication and bulk liquid transfer, such as tank to tank and ships bunkering.

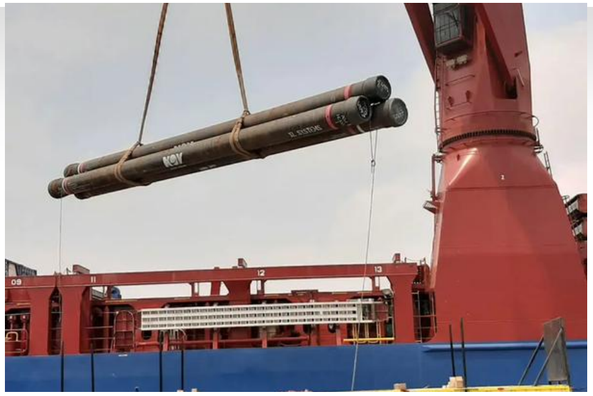

NOV- XL SYSTEMS
(ENGINEERED PRECISION CONNECTORS FOR EVERY INDUSTRY CHALLENGE)

NOV- XL Systems deliver top-tier solutions for conductor strings, surface casing, liners, and caissons, tailored for the Oil & gas industry and beyond.
XL Systems extensive product range includes both integral and weld-on connectors, accommodating sizes from 16 to 72 inches in diameter.

XL systems are the exclusive provider of wedge thread technology for large-bore pipes. The integral threads, meticulously machined directly into the pipe body, offer the advantage of a true flush outer diameter (OD) and inner diameter (ID), ensuring seamless integration and superior strength.

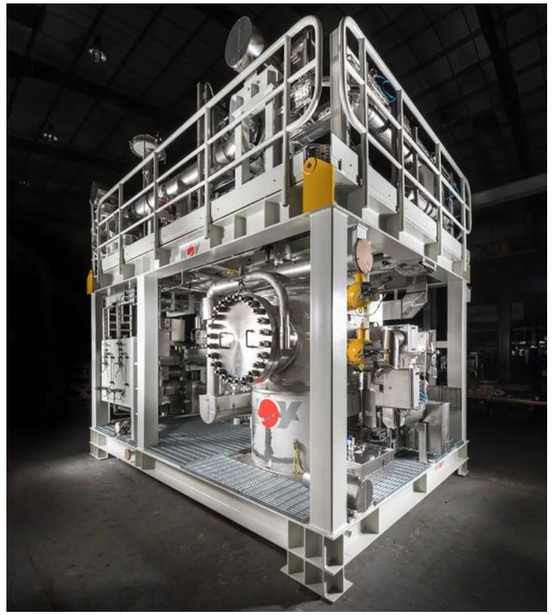

NOV – PROCESS & FLOW TECHNOLOGIES

NOV offer a comprehensive selection of wellstream processing technologies, systems, and services to the Upstream Oil & gas Industry.

NOV deliver innovative technologies for the Separation and Treatment of Oil, Gas, Solids, Seawater and Produced water. NOV also provide top quality hydrateinhibition technologies for low temperature offshore applications. With decades of technology development and process equipment design experience, NOV teams of engineers have the experience to design and manage your project. NOV provide concept designs and plans, front-end engineering design (FEED) and continued involvement throughout the fabrication and manufacturing process

NOV – FIBER GLASS SYSTEMS, MALASIYA & OMAN

NOV-FGS provides composite piping systems, fittings, and structures to the Oil & gas, Chemical, Marine, Offshore, Fuel handling and Mining industries.

NOV FGS is the leading worldwide manufacturer of fiberglass reinforced epoxy (GRE) products used for onshore and offshore corrosion control in a variety of low to high pressure oilfield applications

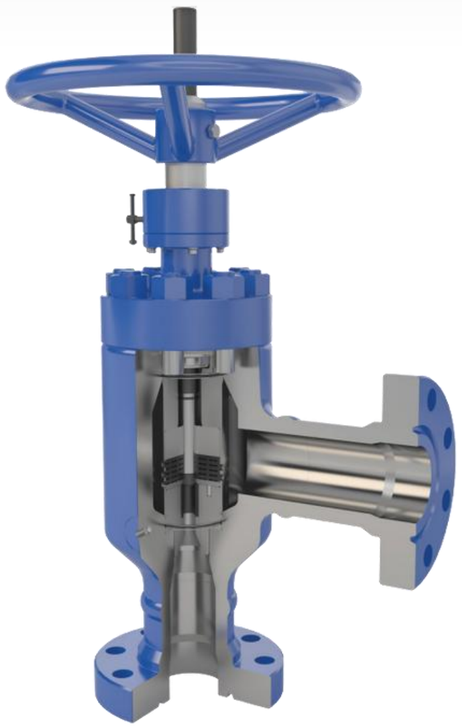

شركة العهد التجارية
AL-AHED TRADING

NOV – CHOKE VALVE, USA

NOV's Choke Valves provide the best erosion resistance in the industry. These chokes provided the lowest cost of ownership and result in increased production uptime, from drill out to artificial lift production.

As a global manufacturer and supplier of chokes for the Oil and gas production market, NOV can provide a fit-for-purpose solution for any application.

Flexitallic®

شركة العهد التجارية
AL-AHED TRADING

FLEXITALLIC, UK

The Flexitallic Group is the international market leader in the manufacture and supply of high quality, high value sealing products. Flexitallic has been at the forefront of sealing technology for over 100 years.

Flexitallic invented the spiral wound gasket over a century ago. Since then, grown to become the leading global manufacturer and supplier of static sealing solutions – and a trusted name across the Oil & gas, Power, Chemical and Nuclear sectors.
With a varied product offering that includes Spiral wound gaskets, Semi-metallic gaskets, RTJ gaskets, Kammprofiles, Sheet gaskets and Dynamic and static packings

BARTON FIRTOP

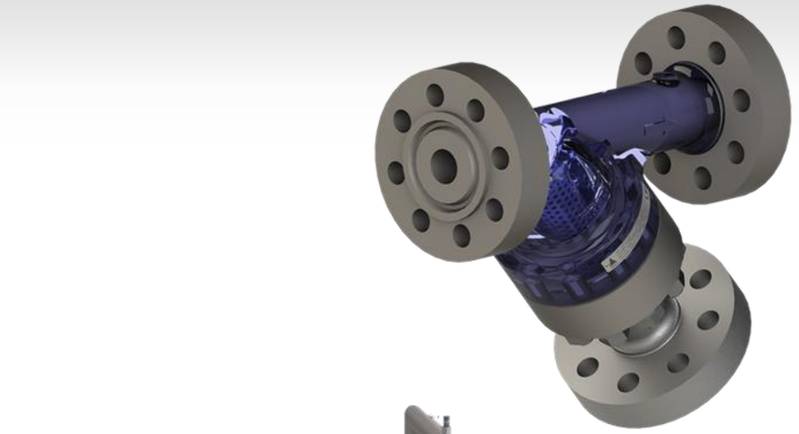

BARTON FIRTOP, UK

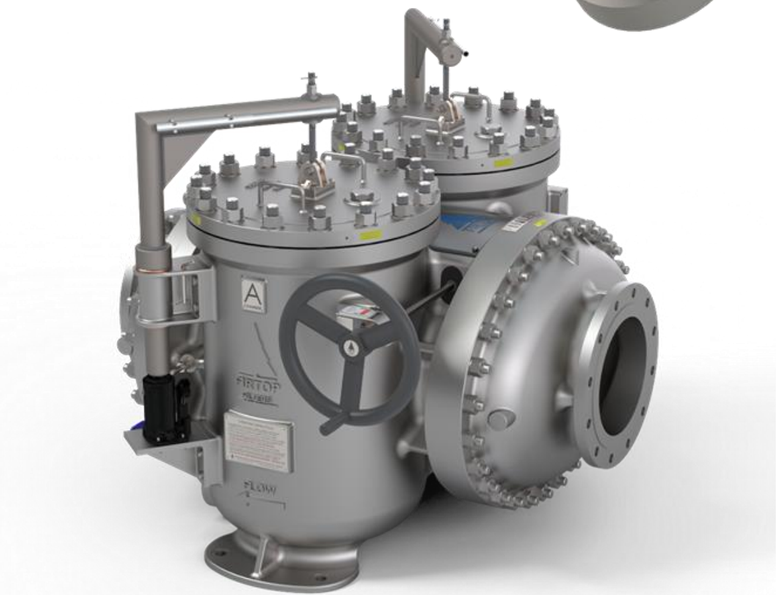

شركة العهد التجارية
AL-AHED TRADING

Barton Firtop is the centre of excellence for ‘Strainer and Filtration Technology’. It is an internationally approved brand. They achieve the lowest pressure drops in the world through their continual development of ‘green technology’, utilising 3D Modelling, Computational Fluid Dynamics (CFD) and Finite Element Analysis (FEA), with full validation through their live flow test rig.

The product range includes Filters, Strainers, Coalescers, Separators, Pressure Vessels, Flame Arresters, Sight Glasses, Static Mixers and Spools.

PROSAVE

شركة العهد التجارية
AL-AHED TRADING

PROSAVE, SOUTH KOREA

Prosave is specialized in Safety & Relief Valves in diverse industries like Petrochemical, Power, Marine & Offshore, Water Works and Energy & Environment

The portfolio includes Pilot Operated Pressure Relief Valve, Vacuum Relief Valve, Air Release Valve, Combination Of Air Release & Vacuum Breaker Valve, Flame Arresters etc.

FLOWLINE VALVES

شركة العهد التجارية
AL-AHED TRADING

FLOWLINE VALVES, OMAN

Flowline valves Oman has been a technology-based professional valve manufacturer.

Flowline valves mainly provides various types of industrial valves like Ball valve, Gate valve, Globe valve, Check valve, Butterfly valve, Specialty valve and many more.

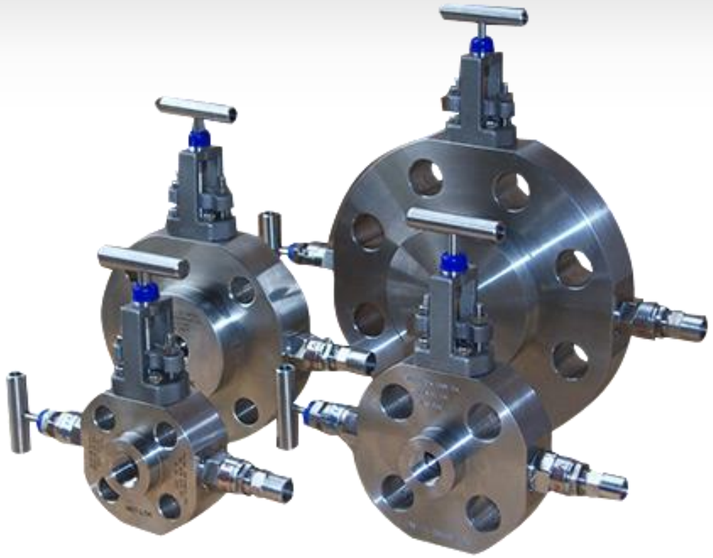

GENETECH

شركة العهد التجارية
AL-AHED TRADING

GENETECH, OMAN

Genetech L.L.C Oman specializes in design, engineering, and manufacturing of quality and high performance instrumentation Valves.

Genetech manufactures Single and Double Block and Bleed type, Slimline-Keyblock Valve, Check Valve, Needle Valve, Shut off valves & Tube Fittings as well as manifold, tube fittings, pipe fittings, flanges and accessories.

شركة العهد التجارية
AL-AHED TRADING

NOBLE GLASS WORKS PVT. LTD, INDIA

Noble Glass Works Pvt. Ltd. is a reputed manufacturer and supplier of specialized glass products. The key product categories include glass enclosures for flame-proof and explosion-proof lighting, industrial glass components, sight glass, and glass and PTFE components.

These glasses are thermally toughened, in order to lend them a hardness. This improves their resistance to breakage, and they can withstand higher operating temperatures and pressures.. Customized Diameters are available across the entire range and the glasses can be supplied in a varied range of thickness, depending on the required pressure rating.

PCI Gases

PCI Gases, USA/INDIA

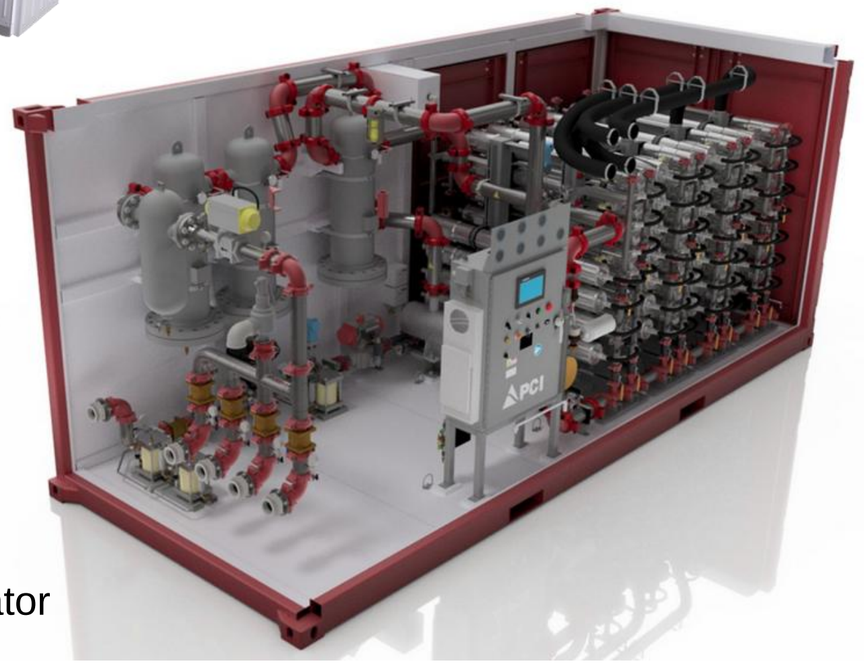

شركة العهد التجارية
AL-AHED TRADING

PCI manufactures ruggedized onsite liquid and gaseous Oxygen and Nitrogen generators for a variety of markets including Oil & Gas, Water and Wastewater Treatment, Industrial, Military and Medical sectors.

PCI products enable customers to produce Oxygen and Nitrogen at the point of use, effectively eliminating the logistical supply chain associated with delivered product. Onsite generation saves time and money, allowing our customers to operate more efficiently and economically.

Nitrogen Generator

ALLMARC

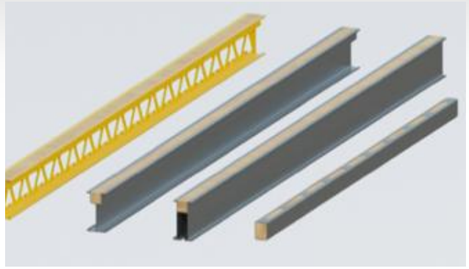

شركة العهد التجارية
AL-AHED TRADING

ALLMARC, INDIA

Allmarc Industries specializing in metal fabrication with advanced machining activities and massive infrastructure adhere to European quality standards.

The product range covers building & infrastructure framework, Scaffolding & shoring, Decking & Safety access system, Custom fabrication, Precast concrete element, Grip Strut.

DETECT TECHNOLOGIES, INDIA

Expanding the Boundaries of AI with T-Pulse

01. Workplace Safety

Monitor Safety Compliance Regulations as mandated by Leading International Safety protocols and resolve issues preemptively with intelligent actionable insights.

02. Workplace Operations

Streamline the efficiency of your industrial projects and never miss a deadline with AI-powered schedule, occupancy, and inventory management.

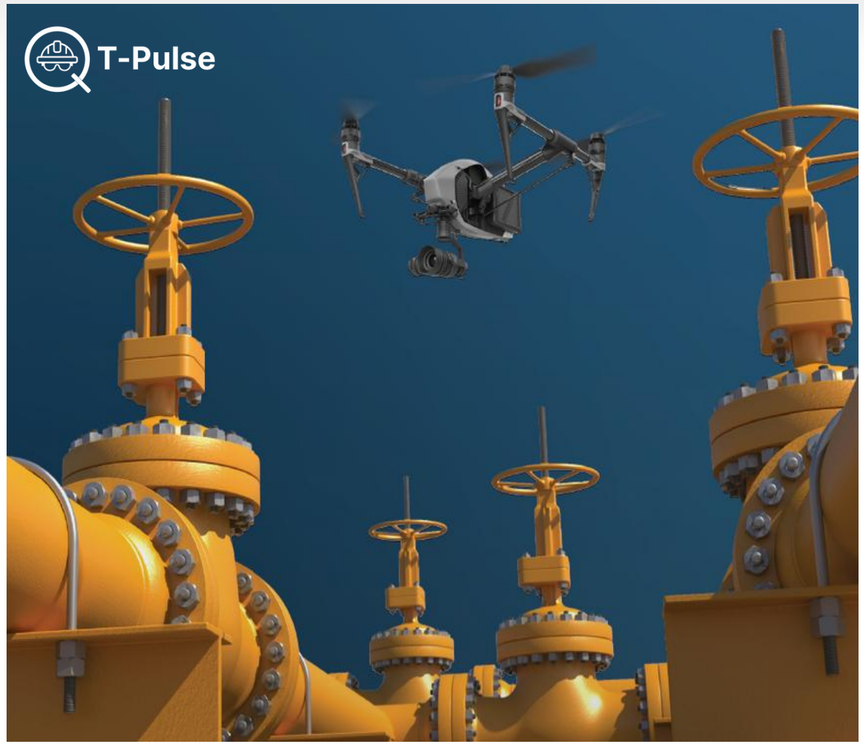

03. Workplace Inspections

Maximize business profitability and RoI with the help of continuous automatic asset performance management and seamless predictive maintenance.

04. Workplace Security

Ensure 24×7 comprehensive security for your people and assets without compromising individual privacy.

GUMPS offers solutions for protecting Industrial pipeline Network against Corrosion Failures.

BALIGA LIGHTING EQUIPMENTS PVT LTD, INDIA.

Baliga are the pioneers in India in the manufacture of explosion proof lighting equipment designed for use in potential explosive industrial environment since 1962.

- Electrical products includes EXD (Flame Proof), EXE (Increased Safety), Non-Explosion proof (Weatherproof)
- Panels includes EXD MCC, Lighting Distribution Boards, EXD Control Panels for annucation, soot blower application with and without PLC, EXP Purged Panels
- LPG Products ranges from fixed systems of 4,3,2 or single gun systems to a FLP portable system

CAPESERVE ENERGY, INDIA

CAPESERVE ENERGY Explosion Proof Battery Management System (ExBMS) integrates seamlessly with the resilient hardware devices, providing a dependable solution for monitoring and collecting battery data. Designed to meet the stringent flameproof Ex technique outlined in ATEX directives and the IECEx equipment certification scheme.

Adhering to the guidelines specified in the IEC60079-10-1 standard, the battery area is categorized as either Zone 1 or Zone 2 IIC T3. Consequently, all equipment installed in the battery room must be designed to meet the minimum requirements of IIC T3 as outlined in the IEC60079-14 standard.
