SPXFLOW
Bran+Luebbe

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

SPX FLOW – BRAN LUEBBE, GERMANY

An integral part of SPX FLOW, Bran+Luebbe serves a broad array of key industry sectors including Oil & gas, Petrochemical, Water Treatment, Chemical, Pharmaceutical, Food/beverage production, Paper Manufacture and Utilities.

This includes standardized Double Diaphragm Pumps, Metering Pumps, Process Pumps, Chemical injection skids and multi-stream analyzing equipment

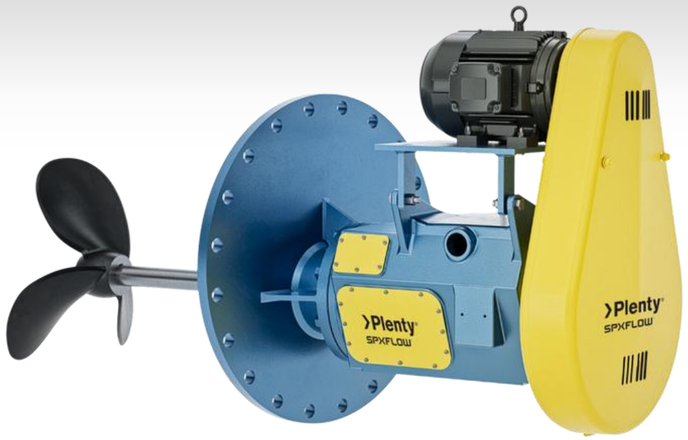

SPX FLOW – PLENTY & LIGHTNIN MIXERS, POLAND

As an SPX FLOW brand, Lightnin & Plenty Mixers serves the challenging Oil & Gas, Waste and Water treatment sector, Fertilizers, Processing of solvents, food/beverages, pharmaceuticals and biofuels.

The Mixers and Agitators, that are custom designed and fabricated, are used for Equalization, Neutralization, Flocculation, aeration, Sludge mixing, Flash mixing and General blending purposes.

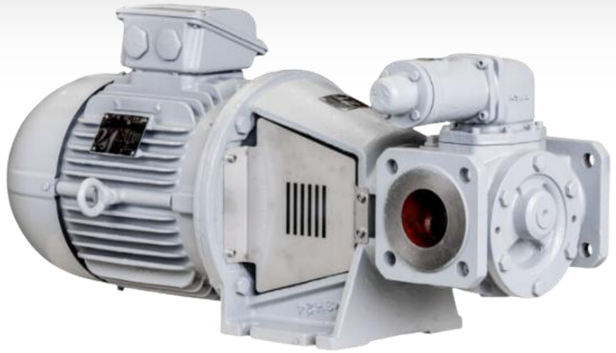

SPXFLOW
Johnson Pump

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

JOHNSON PUMPS – SPX FLOW, NETHERLAND

Johnson Pump offers a wide range of pumps for various applications such as Water treatment, Shipbuilding and Automotive.

The Johnson Pump portfolio covers Internal Gear Pumps, Flow Control Pumps, Rotary Lobe Pumps, Air Operated Double Diaphragm Pumps.

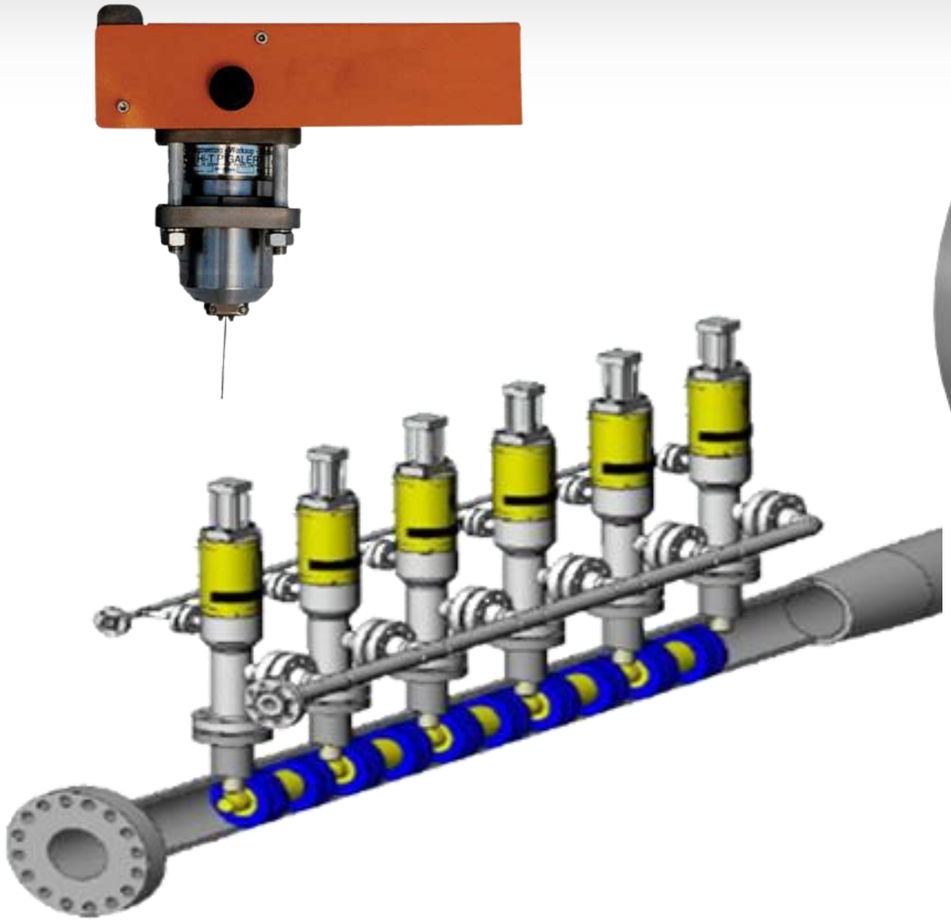

CELEROS – GD ENGINEERING, UK

GD Engineering has gained a worldwide reputation for pioneering work in the design and manufacture of advanced pipeline access and pigging solutions.

- Quick-opening closures enable rapid access to vessels once they have been depressurized. This can be done without the need for any special tools.
- Pig signalling solutions allow the accurate monitoring of pigs/scrapers.
- Multiple Pig Launching solutions for both Topside and Subsea applications to enable sequential pig launching operations to be performed remotely, without the need to depressurize the launcher.

CELEROS FLOW TECHNOLOGY

M&J VALVE

شركة العهد للتجارة والمقاولات ذ.م.م
AL-AHED TRADING & CONTRACTING CO. W.L.L.

CELEROS – M&J VALVES, USA

M&J manufactures Control valves, Gate valves, Check valves, Diverter valves, Bi-directional ball valves and Surge valves.
M&J valves make use of an array of different shut-off mechanisms (slab, piston, swing, rotary and axial) to reflect the breadth of application characteristics presented.
They are suitable for incorporation into both Overland and Subsea pipelines, along with Storage facilities, Offshore platforms and Pumping stations.

CELEROS FLOW TECHNOLOGY

COPES-VULCAN

شركة العهد للتجارة والمقاولات ذ.م.م
AL-AHED TRADING & CONTRACTING CO. W.L.L.

CELEROS – COPES VULCAN , USA

Copes-Vulcan offers General service and Severe duty control valves, Desuperheaters and Direct steam converting valves. Copes-Vulcan's Desuperheater is recognized industry wide as the most versatile desuperheater available. It is easily capable of meeting the most demanding needs for desuperheating in both the Power and Process industries.

This offers extremely fine control and exceptional turndown that is limited only by the rangeability of the coolant control valve itself.

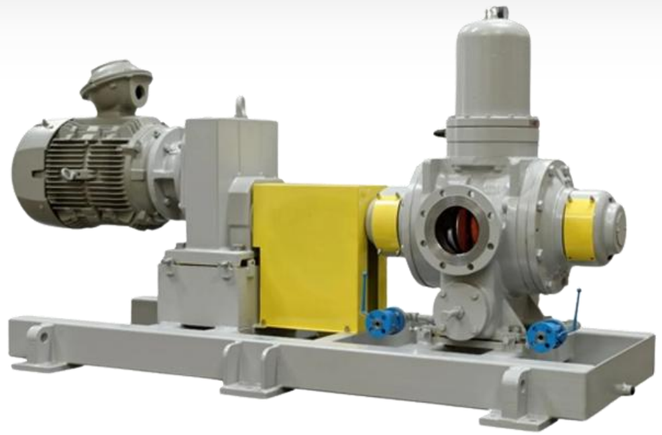

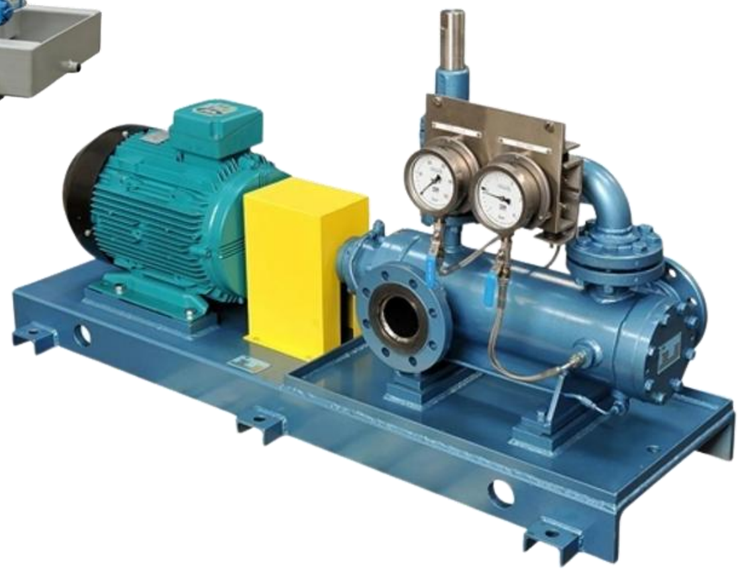

PLENTY MIRRLEES PUMPS – CELEROS, UK

Plenty’s offers high quality pumps that cover a diverse range of different application. Plenty Mirrlees Pumps are all well suited for use in the highly demanding industries like Power, Chemical, Oil & Gas, marine, food/beverage and water treatment sectors.

Plenty Mirrlees offers a comprehensive portfolio of Positive Displacement, Variable flow and Fixed flow rotary vane pumps, plus a multitude of Triple and Twin screw pumps, ideal for applications including forced oil lubrication and bulk liquid transfer, such as tank to tank and ships bunkering.

NOV- XL SYSTEMS
(ENGINEERED PRECISION CONNECTORS FOR EVERY INDUSTRY CHALLENGE)

NOV- XL Systems deliver top-tier solutions for conductor strings, surface casing, liners, and caissons, tailored for the Oil & gas industry and beyond.
XL Systems extensive product range includes both integral and weld-on connectors, accommodating sizes from 16 to 72 inches in diameter.

XL systems are the exclusive provider of wedge thread technology for large-bore pipes. The integral threads, meticulously machined directly into the pipe body, offer the advantage of a true flush outer diameter (OD) and inner diameter (ID), ensuring seamless integration and superior strength.

والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

NOV – PROCESS & FLOW TECHNOLOGIES

NOV offer a comprehensive selection of wellstream processing technologies, systems, and services to the Upstream Oil & gas Industry.

NOV deliver innovative technologies for the Separation and Treatment of Oil, Gas, Solids, Seawater and Produced water. NOV also provide top quality hydrateinhibition technologies for low temperature offshore applications. With decades of technology development and process equipment design experience, NOV teams of engineers have the experience to design and manage your project. NOV provide concept designs and plans, front-end engineering design (FEED) and continued involvement throughout the fabrication and manufacturing process

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

NOV – FIBER GLASS SYSTEMS, MALASIYA & OMAN

NOV-FGS provides composite piping systems, fittings, and structures to the Oil & gas, Chemical, Marine, Offshore, Fuel handling and Mining industries.

NOV FGS is the leading worldwide manufacturer of fiberglass reinforced epoxy (GRE) products used for onshore and offshore corrosion control in a variety of low to high pressure oilfield applications

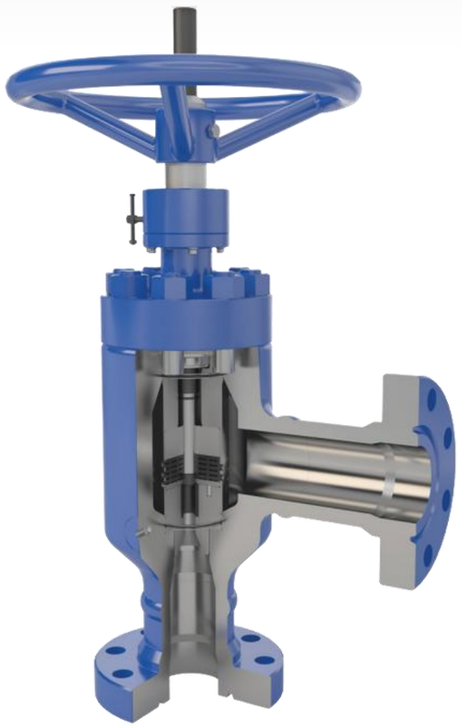

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

NOV – CHOKE VALVE, USA

NOV's Choke Valves provide the best erosion resistance in the industry. These chokes provided the lowest cost of ownership and result in increased production uptime, from drill out to artificial lift production.

As a global manufacturer and supplier of chokes for the Oil and gas production market, NOV can provide a fit-for-purpose solution for any application.

Flexitallic®

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

FLEXITALLIC, UK

The Flexitallic Group is the international market leader in the manufacture and supply of high quality, high value sealing products. Flexitallic has been at the forefront of sealing technology for over 100 years.

Flexitallic invented the spiral wound gasket over a century ago. Since then, grown to become the leading global manufacturer and supplier of static sealing solutions – and a trusted name across the Oil & gas, Power, Chemical and Nuclear sectors.
With a varied product offering that includes Spiral wound gaskets, Semi-metallic gaskets, RTJ gaskets, Kammprofiles, Sheet gaskets and Dynamic and static packings

BARTON FIRTOP

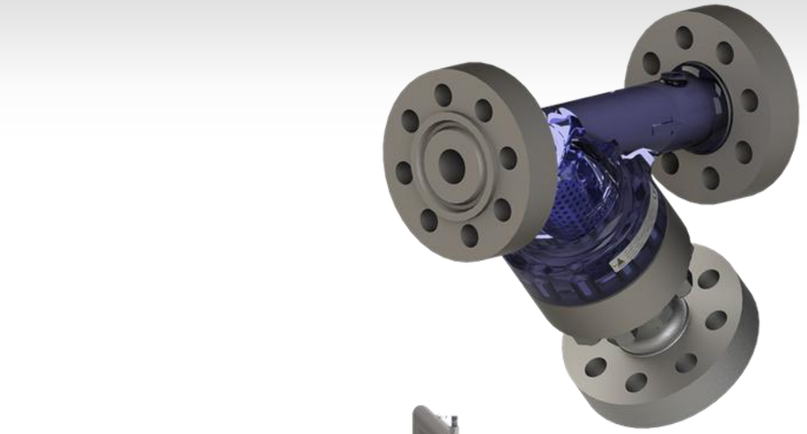

BARTON FIRTOP, UK

شركة العهد للتجارة والمقاولات ذ.م.م
AL-AHED TRADING & CONTRACTING CO. W.L.L.

Barton Firtop is the centre of excellence for ‘Strainer and Filtration Technology’. It is an internationally approved brand. They achieve the lowest pressure drops in the world through their continual development of ‘green technology’, utilising 3D Modelling, Computational Fluid Dynamics (CFD) and Finite Element Analysis (FEA), with full validation through their live flow test rig.

The product range includes Filters, Strainers, Coalescers, Separators, Pressure Vessels, Flame Arresters, Sight Glasses, Static Mixers and Spools.

PROSAVE

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

PROSAVE, SOUTH KOREA

Prosave is specialized in Safety & Relief Valves in diverse industries like Petrochemical, Power, Marine & Offshore, Water Works and Energy & Environment

The portfolio includes Pilot Operated Pressure Relief Valve, Vacuum Relief Valve, Air Release Valve, Combination Of Air Release & Vacuum Breaker Valve, Flame Arresters etc.

Classification: Internal

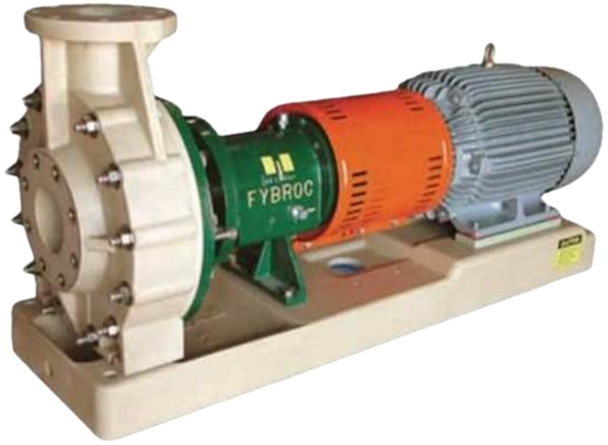

FYBROC™
BY TUSK INDUSTRIAL

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

TUSK INDUSTRIAL – FYBROC, USA

Fybroc® is the world leader in the design and manufacture of Fiberglass Reinforced Polymer (FRP) pumps. These pumps are available in different materials to provide corrosion resistance for pumping Acids, Brines, Caustics, Bleaches, Solvents, Seawater, and a wide range of Waste liquids. Fiberglass centrifugal pumps offer excellent corrosion resistance without having to use costly and volatile exotic metals.

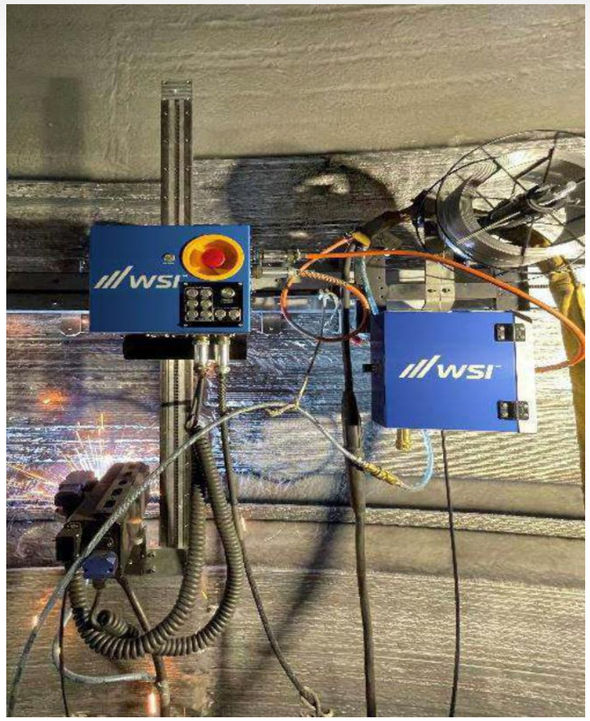

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

WSI, USA

WSI is the premier welding contractor for critical installation and repair services.

As the largest and most experienced specialty welding contractor, WSI delivers advanced automated welding solutions, including weld metal overlay, orbital welding, high velocity arc spray, and return bend welding, supporting planned projects and emergency response while setting the standard for quality, productivity, and reliability across industrial and energy applications.

OXAIR INDIA
A ZENOX GROUP COMPANY

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

OXAIR (A ZENOX GROUP COMPANY), INDIA/AUSTRALIA

Oxair is having specialization in the supply of on-site gas generation equipment within India as well as international markets. Oxair designs and manufactures packaged oxygen Pressure Swing Adsorption (PSA) Systems including small to medium PSA systems for all types of industry including Medical Hospitals as well as large industrial Tonnage plants.

Oxair also design and build small to large Nitrogen systems using Air Products Membranes as well using PSA technology for numerous industrial applications. Through continuous refinement and innovations, Oxair has transformed into an undisputed leader in its segment. In Medical, Defence, Glass, Mining and Process Industries.

J DE JONGE, NETHERLAND

J de Jonge is a prominent international mechanical contractor and engineering firm headquartered in Vlaardingen, Netherlands, within the strategic hub of the Port of Rotterdam. The company is globally recognized for its expertise in designing, manufacturing, installing, and servicing advanced fluid and gas transfer systems, most notably through its dedicated JLA Marine and Land Loading Arms division.

By replacing traditional, high-maintenance hose connections with rigid, articulated piping structures, the enterprise provides robust, safe, and highly efficient solutions for transferring critical liquids and liquefied gases between maritime vessels, storage terminals, railcars, and tank trucks.

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

SAMIA ITALIA SRL, ITALY

SAMIA Italia Srl is an Italian engineering company that specializes in making high-performance safety and combustion systems for the oil, gas, and chemical industries. Founded in 1951, the company is best known for designing industrial flares and process burners that safely burn off waste gases and heat refinery equipment. Their systems are crucial for preventing accidents and managing high-pressure gases at major production plants worldwide.

The company focuses heavily on environmental safety by creating advanced low-emission burners that reduce air pollution

Cangzhou Longtaidi Pipe Technology Co., Ltd.

شركة العهد للتجارة والمقاولات ذ.م.م
AL-AHED TRADING & CONTRACTING CO. W.L.L.

CANGZHOU LONGTAIDI PIPE TECHNOLOGY CO. LTD, CHINA

Cangzhou Longtaidi Pipe Technology Co., Ltd. was established in 2010 and is headquartered at Cangzhou, Hebei Province, China.

LONGTAIDI specializes in the integrated manufacturing of Weld-overlay clad pipes, Weld-overlay clad fittings, Weld-overlay clad flanges, Mechanical lined pipes, Hot induction bends (CS and Clad), CS/AS/SS/DSS fittings, CS/AS/SS/DSS flanges, Laser Cladding, Hot Rolled Bonded Clad Pipes, and Prefabricated pipe spools. It holds API Q1, API 5LD, ASME U/PP, and ISO 9001/14001/45001 certifications, with classification society approvals from CCS, LR, BV, and ABS. LONGTAIDI is approved by oil & gas companies and EPC contractors worldwide.

controlseal
VALVE TECHNOLOGY

شركة العهد للتجارة
والمقاولات ذ.م.م
AL-AHED TRADING
& CONTRACTING CO. W.L.L.

CONTROL SEAL INTERNATIONAL B.V., NETHERLAND

Controlseal™ is a Dutch valve manufacturer with over 30 years of experience. A globally recognized certifications attest to their commitment to excellence. They offer unique product designs, short lead times and competitive pricing. Specializing in both standard and customized solutions.

The main products include non-contact rising stem ball valves, dual expanding double block and bleed plug valves, axial flow valves, and 4-way diverter valves.

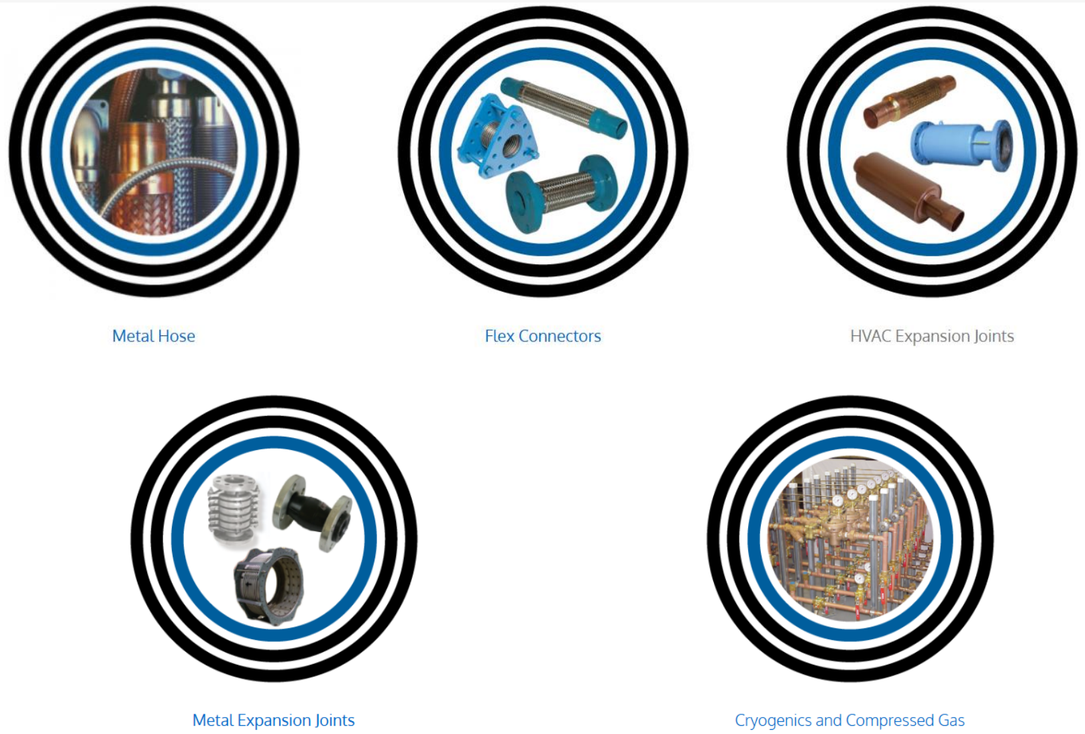

SEINOR FLEXONICS, CANADA

Senior Flexonics sets the standard in supplying reliable and proven metallic, composite and PTFE hoses, flex connectors, metal hose, metal expansion joints and bellows to industries such as Oil & Gas Refinement, Power Generation, and Steel that are forced to deal with high temperatures and complicated pressure piping systems.

In addition to the engineered products, they provide Engineering services to compliment your in-house Engineering or complete Engineering and project management as required.

CHAODA

شركة العهد للتجارة والمقاولات ذ.م.م
AL-AHED TRADING & CONTRACTING CO. W.L.L.

CHAODA VALVES GROUP CO., LTD. CHINA

Chaoda valves Established in 1984 and headquartered in Yongjia, Zhejiang Chnia.
Featured on Metal Seated Ball valves, Cryogenic valves, Bellow Sealed valves, Pig valves, Plug valves, High Performance Control valves, Steam Trap and various conventional Ball, Gate, Check, Globe and Butterfly valves, Chaoda valves widely used for industries like Petroleum, Natural Gas, Petrochemical, Metallurgy, Power, and also export to countries and regions of Europe and America, Asia Pacific, Mideast.
Chaoda have attained quality system and product certification like ISO 9001, ISO 14001, ISO 45001, CE/PED, API 600, API 6D, API 607, API 6FA, API 624, API 641, API 591, ISO 15848-1, SIL3, TS by establishing stringent quality management and assurance system.

THANK YOU
